

Aurelii Communications, LLC  
510 Clinton Square  
Rochester, NY 14604  
813-601-1802

I am writing to introduce Aurelii Communications, LLC the very best in Gold Code Technology.

Aurelii Communications specializes in the development of codes and sequences for Communications Engineering. This includes applications for Voice, Video and Data using wired, wireless and optical communication media. Aurelii Communications portfolio of products includes:

- Gold Codes
- Bluetooth PN Sequences
- Barker Codes
- Very Short PN Sequences

All of the products that Aurelii Communications produces are hardware peripheral Intellectual Property (IP) that can be implemented by communication systems engineers using Field Programmable Gate Arrays (FPGAs). They can exist as stand-alone peripherals or as part of a System-on-Programmable-Chip (SOPC) design.

Aurelii Communications mission is to provide the very best communication solutions to customers requiring secure communication technologies for transmission over mainstream or evolving networks. It is my hope that Aurelii Communications will be able to provide solutions to your communications engineering projects.

I would personally like to wish you the very best of success in your design efforts and product development and hope to have the opportunity to discuss ways that Aurelii Communications can contribute to that success.

Sincerely,

Joseph Brindisi
